STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/2/1Total stocks of leaf tobacco lower than a year ago.

Leaf tobacco inventories of dealers and manufacturers in the United States and Puerto Rico totaled 4,196 million pounds as of October 1, 1973. This was a decline of 209 million pounds from the 1972 October level.

The marketing year for all kinds of tobacco, except flue-cured and cigar wrapper, is on an October-September basis. The indicated total combined disappearance (exports plus domestic consumption) for all U. S. types during the 1972-73 marketing year was 1,958 million pounds compared with 1,892 million the previous year. Domestic manufacturers used approximately 300.5 million pounds of imported tobacco during the past fiscal year--196.4 million pounds of cigarette leaf and 104.1 million of cigar. Exports of U. S. leaf during the 1972-73 marketing year totaled 639 million pounds compared with 571 million in 1971-72.

Stocks as of October 1, 1973 included 643.1 million pounds of leaf tobacco under Government losns. These losn stocks were divided as follows:

| flue-cured | 348.4 million pounds |
|----------------|----------------------|
| burley | 276.7 |
| fire-cured | 3.1 |
| dark air-cured | 12.8 |
| cigar leaf | 2.1 |

^{1/} Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See tables in body of report for reported weight basis.) This report is issued quarterly.

 $[\]underline{2}/$ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

Flue-cured, burley, and Maryland decline, imported cigarette and smoking leaf increases.

Flue-cured stocks on October 1, 1973 at 2,112 million pounds were 228 million below the level of a year ago. Marketing of the 1973 crop, currently estimated at 1,146 million pounds, began in July and by the end of September 678 million pounds had been sold.

Burley stocks were 1,229 million pounds this October 1 compared with 1,248 the year before. Total disappearance during the past marketing year amounted to 610 million pounds. Exports were 76 million pounds leaving a residual domestic consumption of 534 million.

Inventories of <u>Maryland</u> tobacco showed a small decline to 52.7 million pounds. Disappearance during the 1972-73 marketing year remained 25.5 million pounds. With exports at 12.1 million pounds the indicated domestic usage fell to 13.4 million pounds.

Imported cigarette and smoking tobacco leaf stocks registered a gain of 44 million pounds with an inventory of 434 million pounds. The increase was in burley and flue-cured as Oriental remained at the October 1972 level.

^{1/} Types 11-37 are reported on the basis of packed weight.
2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.

^{3/} The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.
